## DOLLAR MARK REACHED

### The Price of Wheat May Go Still Higher.

EUROPEAN CROP SHORTAGE

Reports From the Northwest Worse Than Usual—Corn, Oats and Provisions Advance.

New York, August 20.—At 1:40 today, September wheat in the local market reached the long talked of goal of $1 per bushel. Naturally enough, the incident created a tremendous sensation on the floor of the exchange, and was greeted with prolonged cheers from more than a thousand throats. Several times during the early afternoon the bulls snapped the price within ⅛ cent of the desired mark, but a return wave of selling orders each time swept it back. The final and successful effort was made under impulse of export rumors, reaching enormous figures. September was hanging around 99⅛ when the export news was first whispered about and at once danced upwards in response to excited local buying. Higher and higher it whirled, watched by everybody on the floor until the big black finger of the record dial plumped fairly on the even figure and dollar wheat in New York was an accomplished fact.

Now that the bulls have attained their boast, they are as far as ever from being satisfied and claim that the wave of bull sentiment which has spread like fire all over the country will carry the price here to at least $1.25 per bushel and perhaps even higher.

That dollar wheat is already a thing of the past was demonstrated on the curb, when clamorous demands from high-strung local shorts raised the price to $1.00⅛, or a cent above advance from the official close. About 50,000 bushels of wheat changed hands at $1 this afternoon.

From the very outset today the local dealings were marked by great excitement. Everybody felt that dollar wheat was in the air, and while there were occasional lulups when traders unloaded jags of wheat on which there was good profits, they were invariably followed by a general tightening of values on fresh waves of reckless buying.

The crowd, being keyed up to a high pitch of excitement, eagerly swallowed the wildest sort of bull news, such as would be ordinarily rejected. The English market was up in the air, keeping free pace with our advances. Their closing prices were the top for the day, and 3⅞ to 4⅛ higher than last night. French markets, on the other hand, held back and showed practically no response to the extraordinary strength in other markets. Private cables credited the English advance to rainy weather and excited covering by shorts.

First prices in this market were made simultaneously at from 97⅛c to 98c for September and 98⅛c to 97⅞c for December. The latter displayed the greatest strength during the day on large buying orders from the local houses and others. Subsequently September dropped to 97c under realizing sales, but at noon was chased to 99⅞c by a frantic rush of buying orders.

Throughout the day fluctuations were very erratic, at times leaping ¼c to ⅜c between sales. The trade was considerably amused over the stories of enormous profits being made on the boom. At one time here today cash wheat was nominally worth $1.05⅛ for No. 1 northern f.o.b. afloat and No. 2 red $1.04⅛. A year ago the former sold at 64⅞c and the latter 69⅛c to 69⅞c. The price of September a year ago was 63⅞c and December 66c. Bullish spring wheat news was an important factor in the advance all day, just as it was yesterday. The full range on September today was from 97c to $1, the close being 99⅞c. December opened at 96⅞c to 97⅛c, sold off to 99c and closed at 98⅞c. Total transactions were 8,355,000 bushels. Export sales were 175 loads here and at outports, including three cargoes for France.

Chicago, August 20.—The wheat market had another remarkable advance today, September closing at 93 and December at 92⅝, showing gains of 5⅛ and 6⅞ respectively. There was a sensational advance at Liverpool, and poor crop reports were responsible for the jump, which was accompanied by scenes of excitement almost unparalleled. On the curb this afternoon September wheat sold at 95¾ cents.

Corn was advanced ⅝ cent in spite of unfavorable conditions, and oats closed a half higher. Provisions advanced 5 to 15 cents.

Wheat opened with a roar at 90⅛ to 90⅝ cents for September and from 90¼ to 91 cents for December, against yesterday's closing prices of 87⅛ and 87¼ cents. An active scramble for the limited offerings at the commencement jumped the price to 91⅛ cents for both September and December before much could be brought. The early telegrams on market matters were quite sufficient to account for the renewal of the buying frenzy with which a number of heavy operators have been seized at intervals during the last six weeks. Liverpool was excited and ¼ to ⅜ pence higher at the opening, notwithstanding yesterday's decline here, and in the course of half an hour the Liverpool excitement had carried the day's rise up to the equivalent of 5⅛ cents per bushel, the cablegram quoting the advance at 4⅛ pence per cental.

Crop reports from the northwest were even worse than usual, while Beerhom added fuel to the flames by cabling predictions of $2 wheat on account of the European crop being estimated at 384,000,000 bushels short of requirements. Wheat had declined to 89⅞ for September on realizing sales, but the publication of such radical statements started the speculators and made them to a man anxious to get some wheat. The result was that in two hours from the opening December had risen to 93 cents and September 92⅞, while St. Louis, Minneapolis and Duluth all quoted $1 as the price of cash wheat in their respective markets.

The reports of foreign buying of cash wheat at New York were of a sensational character. Everything offered in the shape of wheat or flour to London, Liverpool, Bristol, Hull, or other United Kingdom ports was accepted, and before noon 110 boatloads, or 889,000 bushels had been sold for export at New York.

The Paris market was reported ⅛ centime per bushel lower, but for all that orders from there to buy wheat of futures were heavy and the demand from the United Kingdom was said to be immense. Every house here with English connections had buying orders for December wheat, many of them to cover previous short sales.

Chicago receipts were 393 carloads of wheat, only 14 of them contract, and 56 of the lot were new spring. Minneapolis and Duluth got 163 cars, compared with 378 a year ago. Export clearances from Atlantic ports were equal to 700,000 bushels. The advance here, which finally reached 93⅛ for both September and December, seemed to have paralyzed the cash trade, as only 10,000 bushels were sold for shipment from here. The market was very erratic toward the close, with fluctuations very frequent. September was bringing 93 cents at the close and December was quoted at 92⅝.

In spite of large receipts a good deal of country selling and a prospect of milder weather, corn was strong and at one time showed over a cent advance. September opened about ⅜ higher at 29⅛, sold between 29 and 29¾ to ⅞, resting at 29⅛ to ½.

Oats were rather quiet during the early morning, but the market became active as the session advanced and a heavy day's business was done. September opened a shade higher at 18, sold at 17⅞ to 18 and advanced to 18¾. The closing price was 18⅛ asked.

Minneapolis, August 20.—Cash wheat sold today at a dollar the first time since the summer of 1890. The predictions were today that futures would follow within a few days in view of the advance of 6 cents today. On the chamber of commerce floor there was a shout of expectancy from the pit as the price approached a dollar. The market was strong, opening 3 cents higher than yesterday's close, supported by strong foreign news and the bullish northwest reports. The price of cash wheat had just passed the dollar point, when from down the hallway came the sound of martial music. There was a rush for the door and the crowd broke into a cheer as up the corridor came O. A. Pillsbury at the head of a band of music, which was pounding out a dollar memorial march. Mr. Pillsbury led his band through the doorway and on to the floor, while hats went up and cheers proclaimed the entire satisfaction with which a majority received the news of dollar wheat. The market whirled away and very few attempted to keep up with it. September closed in Minneapolis at 5⅞ cents higher than yesterday and December closed at a full 6 cents higher.

San Francisco, August 20.—Intense excitement prevailed in the local wheat market today, and options advanced with great leaps. December opened at $1.60, receded, and closed at $1.60⅞. After the call there was an advance to $1.61⅞. An hour later it rose to $1.63, but at 11.15 there were large sales to take profits, and prices declined sharply. May opened at $1.60 and closed at $1.61¾.

This afternoon December opened at $1.64 and closed at $1.63⅛, while May opened at $1.62 and closed at $1.61½.

## WAIT FOR THE RAILROAD

TWO SURVEYING PARTIES AT WORK IN ALASKA.

Five Thousand Men to Be Put to Work Between Juneau and Dawson.

San Francisco, August 20.—The special correspondent of the *Bulletin*, writing from Juneau, Alaska, under date of August 11th, says that railroad communication between Juneau and Dawson will be one of the things of the near future. Next spring 5,000 men will be at work night and day and the road will probably be completed before next fall. The proposed road is to start from the head of navigation on the Taku river to Lake Teslin. Light draft steamers will be operated from each end of the new road and it will take four days to make the journey from Juneau to Dawson. There is a surveying party already in the field consisting of W. A. Pratt of Wilmington, Del., T. O. Jenney, P. I. Packard, promoter of the road, and A. E. Johnson, his assistant.

Another road is being surveyed to start from Skaguay bay, crossing White Pass. This road will be built by an English company.

Victoria, B. C., August 20.—In a letter from Montreal, Arthur Bellingham, of the British Yukon Company, who goes to London, says his company will start work on a railroad from Skaguay bay to the head waters of the Yukon and have it completed in 1899.

### Chico Races

Chico, August 20.—A very large crowd attended the races at the driving park this afternoon, business houses having closed at 1 o'clock. The racing was very good. Summaries: Joe won, Jaspine second, P. W. Hodges third, Ocito fourth. Time, 2.15⅛; 2.15; 2.16¾; 2.19.

Three-year-old Pace—Irvington won, Primrose second, Majella B third, De Bernardi fourth, Hijo del Diablo distanced. Time, 2.11½; 2.14; 2.18½; 2.24; 2.24.

2.17 Class Trotting—Meridian won, Sophia R second, Visalia third, Rosemond distanced, Juliet D distanced. Time, 2.14½; 2.13½; 2.12¼; 2.14.

### Ate Poisoned Meat.

Stockton, August 20.—Melvin Robinson, colored, aged 20, died mysteriously this morning. The circumstances were so peculiar that the attending physician refused to sign the death certificate, deeming the case a proper one for investigation. Robinson and several companions ate a luncheon which they found in a lodging house kept by a woman named Turner. When they returned later another repast was ready for them. Robinson ate some salad and was taken sick. Death resulted. It is said that the second meat was poisoned.

### Silver Quotations.

New York, August 20.—There was a sharp recovery in the price of silver today, bar silver opening in London at 24⅛d, an advance of 7-16d. The opening price here for bar silver was 52¼, a rise of ¾. Mexican dollars were quoted at 40½ against 39⅞. Yesterday's low level invited buying which induced the recovery, but the market is reported rather weak at the price.

### Fighting Fire in a Mine.

Angels Camp, August 20.—The fire in the Utica mine is about out tonight and it is believed the miners will be able to go to work next Monday getting ore for the mills. All day shifts of five men have been worked fifteen minutes each in fighting the fire. The men were overcome by gas many times, but all rallied and responded to calls for work. The fire will be all out before morning.

### Fire Caused by Lightning.

Milton, August 20.—During yesterday's thunder storm lightning struck a tree near Copperopolis, igniting the grass and starting a fire which swept the fields from Copperopolis to Knights Ferry.

### A Blaze at Riverside.

Riverside, August 20.—Fire destroyed the residence of Mrs. Hattie Smith in this city today. The cause of the fire was a defective flue. The loss is estimated at $3600; insurance $2500.

## TO EXTEND THE STRIKE

### Other Branches of Labor May Join the Miners.

LEADERS TO MEET AT ST. LOUIS

The Board of Mine Workers Rejects the Proposition of the Pittsburg Operators.

Columbus, O., August 20.—The national executive board of the mine workers adjourned today after having issued the call for the meeting of organized labor to be held in St. Louis, August 30th. The board rejected the proposition of the Pittsburg operators for a conference, claiming that such action would be prejudicial to the interests of the miners. The board is ready to consider overtures for the arbitration of the issues of the great strike only when these overtures come from all the operators in the competitive districts, which include Ohio, Indiana, Illinois, West Virginia and Pennsylvania. The board has decided not to deviate from the established policy until the result of the St. Louis conference is known. The aggressive work in the field will be continued.

The success or failure of the strike hangs on the result of the conference, the call for which has been endorsed by Samuel Gompers of the American Federation of Labor and J. R. Sovereign of the Knights of Labor.

The failure to secure a general suspension in West Virginia has greatly interfered with the prospects of success, as the coal supplied from thence is meeting the limited demand. If the object of the St. Louis conference is accomplished the strike will be extended to nearly every branch of labor in the country.

## SOLLY SMITH THE VICTOR.

### Johnny Griffin Put Out in the Seventh Round.

San Francisco, August 20.—Solly Smith of Los Angeles repeated his performance at Roby four years ago by knocking out Johnny Griffin of Boston in the seventh round. It was Smith's fight from start to finish. He did all the leading the first three rounds and in the third put Griffin on the floor for eight seconds with a right swing on the jaw. A moment later Smith opened a big cut over Griffin's right eye with a left swing. In the fourth he jabbed and swung on Griffin's face repeatedly.

The fifth and sixth were comparatively tame. In the seventh, after two minutes' sparring, Griffin led for the face with his left, but missed. Quick as a flash Solly swung his right, striking Griffin squarely on the point of the jaw.

Griffin was knocked out and remained on the floor without moving a muscle until his seconds carried him to his corner. Even then it required several minutes work and the attention of a physician to restore him to consciousness. He finally came around and was able to walk to his dressing room.

Patsy Corrigan of Australia was awarded the decision over Jimmie Brown at the end of a fifteen round contest.

## BEET SUGAR FACTORY.

### A Large Plant May Be Located in Contra Costa County.

Oakland, August 20.—A large beet sugar factory may be established at Crockett, Contra Costa county. The proposed site is where the Starr flour mills stand. Agents of the California Beet Sugar and Refining Company have been interviewing farmers in that vicinity.

An investment of $2,500,000 in the enterprise is contemplated, it is understood. The location under consideration is favorable for transportation by rail and water of raw and manufactured products. The site was selected for the Star mills for that reason. It is stated that contracts for machinery have been arranged and that as soon as the site is selected work will be commenced. The new factory will handle beets from the various counties. If the raw product is to be ready in the season of 1898 contracts with the farmers must be made soon.

The Star mills property belongs to George W. McNear, who, it is said, has become interested in the beet sugar enterprise.

Mr. McNear's representatives in this city neither affirm nor deny the report that he has taken first place among the organizers of the company.

## ANGIOLLILO EXECUTED.

### The Slayer of Spain's Prime Minister Pays the Penalty.

San Sebastian, August 20.—Michael Angiollilo, who shot and killed Senor Canovas del Castillo, the prime minister of Spain, at the baths of Santa Aguoda on Sunday, August 8th, was executed at 11 o'clock this morning, according to the sentence of the court-martial imposed upon him Monday last, after a trial on the previous Sunday which sentence was confirmed by the supreme council of war yesterday.

Angiollilo heard calmly the news that he was to be executed today, but he appeared to be surprised at and bitterly complained of the frequent visits of the priest, declaring that he would obtain nothing from him. He declined to enter the chapel, saying he was comfortable enough in his cell.

The executioner from Bourges performed the garroting, just prior to which the priest exhorted the anarchist to repent, to which Angiollilo responded: "Since you cannot get me out of prison leave me in peace. I, myself, will settle with God."

## CABLE ROAD FROM DYEA.

### A Scheme to Reduce the Cost of Transportation.

Port Townsend, Wash., August 20.—The steamer Al-Ki sailed this afternoon for Alaska with 150 passengers and 300 head of live stock. J. P. McCormack of New York took an outfit for the construction of a cable road from Dyea over the pass to Lake Lindemann. He says the cable road will be in operation twenty-five days after his arrival at Dyea, reducing the cost of transportation 60 per cent. Messrs. Thompson and Remington, representatives of a Montana live stock syndicate, will leave the steamer at Fort Wrangle and locate a new trail to the Yukon by way of the Sticken river valley. They will employ a large force of men to construct a good road, upon which stages will be operated.

## TARGET SCORES.

### Company E of Visalia Awarded the Gold Medal.

Santa Cruz, August 20.—General James reviewed the brigade today, after which a luncheon in his honor was given. Company E, Sixth regiment, Visalia, was awarded the gold medal for target shooting, having made the highest score of both regimental competitions.

Other scores today were: Company E, Visalia, 143; Company F, Fresno, 122; Company A, Stockton, 116; Company C, Fresno, 97.

## ONLY A POCKET.

### No Rich Gold Fields or Placers in Trinity.

Stockton, August 20.—E. A. Speegle, an experienced miner, has been spending a few days in Trinity county. In an interview today he said: "There are no rich placers; there are no gold fields. The only find was the solitary pocket the Graves boys found and they have been hunting about in the hills for seven years, living from hand to mouth. They got $22,000, and it was not a nugget either. It was gold in decomposed quartz—just a pocket."

### Drowned in the Sacramento.

Sacramento, August 20.—This afternoon about 2.30 o'clock a boy named John McCarthy, 14 years old, was drowned in the Sacramento river at a point a few blocks above the city. There is a bar there and it appears that seven or eight boys were bathing in the river near it this afternoon. McCarthy came along with another boy and divesting themselves of their clothing they started to run a footrace on the bar into the water. McCarthy was unable to swim and he sank into a deep place and was drowned. The drowning occurred in the vicinity of scores of other drownings chronicled in the newspapers from time to time. The body was not recovered.

### Bounty on Squirrel Tails.

Monterey, August 20.—An ordinance providing a bounty of 2 cents for every ground squirrel killed in Monterey county has just passed the board of supervisors and will go into effect at once. The tails instead of the scalps will be used as evidence, and bounties will be paid for tails only.

## BUSINESS CONDITIONS

VOLUME OF TRADE CONTINUES TO INCREASE.

Exports of Wheat and Flour Larger Than During Any Week Since September, 1893.

New York, August 20.—Bradstreet's tomorrow will say: Special telegrams from trade centers throughout the country emphasize the growing prosperity of the farmers. The volume of trade continues to increase and prices are hardening. No such volume of business, largely in anticipation of requirements, has been reported since 1892. Larger transactions have been reported in dry goods, clothing and shoes and in the south and west in wagons and farming implements. Another very favorable bank clearings report is found in the total this week, which, while it is only 1 per cent less than last week, is 40 per cent larger than in the third week of August, 1896; 26 per cent heavier than in 1895. Compared with a like period in 1892, a year of large volume of business, this week's totals show a gain of 13 per cent among eighty-six cities reporting larger bank clearings, and only seventeen show decreases this week compared with the corresponding period last year. Bank clearings at other cities than New York are 17 per cent larger this week than in the like week a year ago, but at New York the increase is 56 per cent.

Prices for staples continue the favorable movement of the past few weeks. There have been a large number of resumptions among iron and steel concerns this week; Bessemer pig is 25 cents higher and the outlook is for improvement.

Exports of wheat, flour included as wheat, from both coasts of the United States and Montreal this week are the largest of any week since September, 1893, amounting to 5,218,000 bushels this week as compared with 4,460,000 bushels last week; 2,391,000 bushels in the week a year ago; 2,380,000 bushels two years ago; 3,182,000 bushels three years ago and as compared with 4,960,000 bushels in the corresponding week of 1893.

There are 221 business failures reported throughout the United States this week against 214 last week, 264 a year ago, 192 two years ago, 251 three years ago and as contrasted with 456 in the third week of August, 1893.

### Shasta Also Has Gold.

Redding, August 20.—Beyond the arrival of many prospectors the day was uneventful in the new mining district. Few gold hunters have returned from Coffee creek and the natural inference is that most of the prospectors are working pay dirt. Reports from all over this part of California tell of wonderful activity in mining and hardly a creek is without its prospectors. Rich ledges have been located in many parts of the country, but the latest news comes from the Shasta mining region and tells of some good finds in that place.

### Will Not Pick Hops.

Ukiah, August 20.—By the collapse of a bridge at Sherwood Valley a wagon-load of Indians from Fort Bragg, coming here to work in the hop fields, were thrown to the bottom of a gulch twenty-five feet deep. All were more or less injured, and several will probably die.

Royal makes the food pure, wholesome and delicious.

## THE CUBAN INFAMY.

If the stories which come from Cuba are true, or one-half true, the indifference with which the United States views the situation in the islands is a national disgrace. Now it is reported that General Weyler has shut off all supplies from Esperanza, a town of 8000 inhabitants. Let credible witnesses tell the result. The curate of the town writes as follows to the Bishop of Havana:

Since the 1st of July all the stores and markets of this town have been closed by order of the captain-general. In God's name I beg your excellency to implore the captain-general to withdraw the order, otherwise all the inhabitants will die of hunger. Many have died already. The captain-general intends to enforce his decree until the fortifications are finished around the town, and I am informed that the work will not be finished for twenty days.

And following is a letter from the mayor of Esperanza to the governor of the province:

The whole population is starving. The resources of the municipality are exhausted. Hundreds of women and children cry despairingly for food and of hunger. I do not know what to do under these horrible circumstances. The order of Weyler closing the markets and forbidding the sale of all kinds of victuals I cannot disobey. Meanwhile, I must contemplate with indifference the spectacle of the people of La Esperanza dying of the direst of calamities. I beg from your excellency a prompt answer. We have no time to spare if we are unwilling that everybody should perish here.

This appears to be reliable testimony, and, in view of the attitude of this nation towards Cuba, it is enough to bring the flush of shame to the face of every American who believes in the brotherhood of humanity. These Cubans, it will be remembered, are among our nearest neighbors; the channel between us and them is a comparatively narrow one. They naturally look to us for aid in their suffering. Yet we, as a nation, are as indifferent to their anguish and to their claim upon us as if barbarous cruelty were a thing approved by us. Though, in our birth, we passed through as crucial, but not as cruel, days as Cuba now knows, we have no hand of sympathy for her. Though France aided us in the time of our extremity, we so far forget her generous deed as to refuse to imitate it. We accepted kindness, but we bestow none.

It may be that the diplomats' theory that there is no code of morals for nations is sound, but if it is not—if the claim of the right is just as strong on a public official as on anybody else—then it is certain that our course with reference to Cuba is one of dishonor. The cry of her starving sounds almost at our very door; we are lacking in the higher attributes of humanity if we refuse to heed it.

The duty of the United States to interfere is clear. Would it precipitate trouble with Spain or any other nation? Very well; let it come. There is a moral law which is higher than any policy of nations. If this law does not apply to us when an infamous brute is starving our neighbors, will somebody say when it would apply? The great republic should put an end to the infamous condition of affairs existing in Cuba, no matter what may be the secondary result.

The Salvation Army is on the right track in its movement to transfer people from the great cities to the land which needs tilling. Outside of its music, which may be forgiven, the Army generally is on the right track and a most helpful factor in the progress of mankind. But its colonization scheme is among the most beneficial of its enterprises, for it reaches a class which otherwise will not be reached. There is a large class of people in the cities who were born and barely live there. They merely eke out an existence, but it is the only existence of which they know, and they do not know how to escape from it. This is the class whom the Army would particularly reach by its plan of colonization. Already thousands of such people have been removed to colony farms, and many thousands more will be reached. The Army should receive moral and financial support in its enterprise, for rarely is one undertaken which promises more for the betterment of the race.

It was indeed considerate in the g. o. p. placing arsenic on the free list, since the rapidly increasing rate of suicides is due to scientific legalized robbery, of the "protective" brand, for which that party is in a great measure responsible. They should render the only available means of escape as easy and as cheap as possible, which they seem disposed to do.—*Tulare Citizen.*

The Republican party is always considerate, but it is just a little bit surprising that the wisdom in providing for a suicide boom should have been demonstrated within a few weeks after the re-establishment of protection. But, as a matter of course, there is a class of people who cannot stand sudden prosperity. Free arsenic will doubtless be a boon to a good many of the chronic calamityites.

San Diego has set the pace for enterprising towns by building a $12,000 garbage crematory. The disposition of garbage is a question that Fresno will have to meet in the not distant future. As it is now garbage is dumped to suit the convenience of people who haul it away and in many suburban localities it is an offensive evidence to sight and is liable to endanger public health. Until better means can be provided an isolated spot for a dumping ground should be secured and the residence localities and public highways made free of the nuisance.

It is now about time for the chronic growlers to begin to register their opinions of the bloated monopolists who own a few acres of land and are paying their debts with the proceeds.

## IMPORTANT MEETING TODAY.

The meeting of raisin growers to be held at the Farmers' Club rooms this afternoon is of the greatest importance and should secure a full attendance. It is understood that growers will come prepared to give a reliable estimate of their crops as compared with the vintage of 1896. The matter of prices will be discussed and important information in connection therewith from various localities is expected. Kings county and other localities will be represented at this meeting. The matter of marketing and distribution of the crop and of means for harvesting, etc., will be before the meeting.

The REPUBLICAN is informed that a committee of the Farmers' Club has waited upon Captain W. A. Nevills of the Paragon and La Favorita vineyards, touching marketing, distribution, etc., and it is understood that the result of the conference was highly satisfactory.

The farmers who have not sold their wheat—and fortunately a majority of them have not—are now in a position to lift mortgages or any old thing of that kind.

## RANDOM REMARKS.

My thanks are tendered to Mr. Barnett, of Fowler, for a box of excellent Bartlett pears and to D. S. Trobridge, also of Fowler, for a box of as handsome peaches as ever I saw, and, living in California, I necessarily have seen nice peaches, too.

In refusing to appoint a libertine to the office of collector of customs at New Orleans, Secretary Gage has done credit to himself and has shown appropriate respect for the high position which he occupies. He cannot maintain his attitude too persistently to please the American people.

The city fathers of Washington, D.C., have adopted an ordinance providing that wheelmen shall not use the dromedary hump in riding. The ordinance is clearly in conflict with that section of the United States constitution which provides that any citizen shall have the privilege of making a dumfool of himself.

The pope is said to have excommunicated the two royal nibses who fought the duel last Sunday; but the people of their respective countries sing to them peans, and they are for a minute the heroes of the universe.—Alameda Argus.

It is a curious thing, too, that people insist upon singing the praises of men who should be in jail. But that is the way of the world; it chants a pean to man of title who override the law, and it crucifies a Christ.

Hear George F. Weeks of the Alameda *Encinal* anent the proposition of the Merced *Express* that every man should think through the platform of his party:

The man who writes himself down as willing to subordinate his own belief as to what is right or wrong to the behests of party, is a pretty poor specimen of a man. It must be granted that an office-seeker to be successful must do this. He must uphold party above all else. Party loyalty is his sole passport to position. But the honest newspaper, the honest man, will not tie himself down to the behests of any party in any such way, and make public confessions, as does the Express, that he allows someone else to do his thinking for him, and is simply a cuckoo for politicians.

But, after all, Brother Weeks, no man of brains and conscience will so prostitute himself, and probably it is unnecessary to worry about the other kind of a man.

When the Valley Press Association next convenes I trust that I may be present, for I have a plan for the amelioration of the condition of newspaper workers which I hope will be approved by the association. An arrangement ought to be made whereby daily papers need be published only when the boys feel like it. We all realize that it is cruelty to animals to compel men to write when the mercury is seeking dry storage in the top corner of the attic. More than that, the perspiring public does not want to read our lucubrations when it has to put a cold compress on its head in order to do so. What I suggest is that the following card be run in the daily papers from May to September, inclusive:

> If Today Is
> Hot,
> Don't Expect a Paper
> Tomorrow.

By heeding the spirit of that warning, we not only would please ourselves but doubtless would gratify and relieve the public. I hope the Press Association will heed this suggestion. Stewed brains on paper cannot be an appetizing dish for the public.

A few years ago I wrote a little tribute, in verse, to California. It has occasionally appeared in one paper or another ever since then. Here is a single verse from it which the *Interior* converted into the form of unassuming prose for me:

Out here in California where the orange turns to gold and nature has forgotten all the art of growing cold, there's not a day throughout the year that flowers do not grow; there's not a single hour the streams do not unfettered flow; there's not a briefest moment when the songsters do not sing, and life's a sort of constant race 'twixt summer and the spring. Why, just to know the joy of it one might his best years give—out here in California, where it's comfort just to live.

I am not finding fault with the *Interior* because it ran that without credit, for doubtless the author's name had been disconnected from his production before the Fresno periodical found the verses. No, I am not writing with the purpose of complaining, but merely because, sitting here today and thinking of just one thing, it has seemed to me that I best could do justice to my feelings by adding another verse to my production. So here goes:

Out here in California where the mountains turn to gold and Nature has forgotten all the art of growing cold, it is only fair to mention, just to make a center shot, she has really not forgotten all the art of growing hot. There's not a single hour the streams do not unfettered flow—the streams of perspiration are the streams I mean, you know. Why, just to know an unsoaked shirt one might his best years loan—out here in California where the climate is our own.

Probably, after this spell of weather is past, I will be sorry that I wrote that, but at present I have no apology to offer.

A. J. W.

## YOUNG MEN'S INSTITUTE.

### Compliments Paid James Gallagher of Fresno.

From the Santa Rosa Democrat.

The grand president of the grand council now in session here is James Gallagher. He is a young attorney in Fresno, and is held there in very high esteem, having been an efficient and most useful member of the Board of Education in that city. Mr. Gallagher was elected grand president of this jurisdiction, which comprises the states of California, Nevada, Utah, and the territories of New Mexico and Arizona, at the grand council which convened at Haywards in May, 1896. He was a delegate to the first supreme council which was held in Denver in 1896.

The increase of membership in this jurisdiction has been very large for the past year, during the term of Grand President Gallagher. He is a young man of ability and an organizer. His manner and appearance are both highly prepossessing. He is much pleased with Santa Rosa, which city he has several times visited prior to this interesting occasion.

It is said that the winery syndicate is trying to hammer down the price of wine grapes.

## OCKENDEN ITEMS.

### Many Ockenden Campers are Homeward Bound.

A party consisting of Mr. and Mrs. Huffman, Miss Nina Huffman, Miss Nona Huffman, Miss Fannie Rosendahl, Mrs. Lotta Stateler, Mrs. Wormser and Miss Laura Jacobson, A. Johnson, Walter Jacobson, and Miss Edka Wormser visited the sheep corral where a dozen or more Indians are busy shearing.

There was a campfire at L. Shortridge's camp Wednesday night. Mr. and Mrs. Shortridge entertained the following invited friends with music: A. Johnson and Mrs. Lotta Stateler, Mrs. Wormser, Miss Laura Jacobson, Mr. and Mrs. Huffman, the Misses Fanny and Edith Rosendahl, Miss Nina and Nona Huffman, Miss Doyle and Miss Jema Foley. They all enjoyed the singing and music very much, and stayed till 11 o'clock before the party broke up.

Henry Rosendahl arrived here Saturday afternoon from Kingsburg, apparently well, but became seriously ill the following morning, when he fell in a sort of fainting spell. He is improving very rapidly and will be able to be about in a few days, when he will be able to return to Kingsburg with his sisters Ralph Goldstein, Willie Stapleton and Charles Garrett.

A. Johnson, the best all-around rifle and pistol shot in camp, who is in the employ of Einstein & Co. in Kingsburg, returned home Thursday morning.

Campers are leaving for the valley in large numbers. After a fortnight there will not be many campers at Ockenden.

Mrs. Wormser's house, "Moss lodge," is known as the "capitol of Ockenden," being the only house displaying the national colors. The lodge is artistically decorated.

A. Erickson and a few other Swedish gentlemen and their party of ladies left for the valley Tuesday morning.

### Didn't Shoot the Band.

Dispatch From Santa Cruz.

Last evening the Sixth Regiment Band serenaded the companies of the regiment, accompanied by the drum corps. Drum Major Scott of Fresno, when called on for a speech by his cheering comrades, said that he was pleased to see the harmony existing between the regiment and band, saying that there were better relations existing than formerly.

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Dr. R. E. Robey, physician and pharmacist, of Olney, Mo.; and as he has used the Remedy in his own family and sold it in his drug store for six years he should certainly know. For sale by Smith Bros., corner Hughes hotel.

### Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Webster Bros' drug store, cor. K and Mariposa streets.

### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters; 50c and $1 per bottle at Webster Bros' drug store, cor. K and Mariposa streets.

### Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Webster Bros., corner K and Mariposa streets.

### Summons.

In the superior court of the county of Fresno, State of California.

The California Savings and Loan Society, a corporation, plaintiff, vs. J. P. Koch, Robert Mack, E. B. Perrin, D. J. Guggenhime, E. M. Stieljes, Frank H. Short, C. H. Williams, Sarah A. Williams, The Fresno Land Company, a corporation, John Doe and Mary Roe, defendants.

Action brought in the superior court of the county of Fresno, State of California, and the complaint filed in the office of the clerk of said county. J. F. Cowdery, attorney for plaintiff.

THE PEOPLE OF THE STATE OF CALIFORNIA send greeting to J. P. Koch, Robert Mack, E. B. Perrin, D. J. Guggenhime, E. M. Stieljes, Frank H. Short, C. H. Williams, Sarah A. Williams, The Fresno Land Company, a corporation, John Doe and Mary Roe, defendants.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the superior court of the county of Fresno, State of California, to answer the complaint filed therein, within ten days, exclusive of the day of service, after the service on you of this summons if served within this county, or if served elsewhere, within thirty days.

The said action is brought to obtain a decree of this court for foreclosure of a mortgage, described in said complaint, made, executed and delivered, by said defendants, J. P. Koch and Robert Mack, to said defendant, E. B. Perrin and one J. B. Randol, on the 9th day of December, 1890, to secure payment of a promissory note of same date described in said mortgage and complaint, made, executed and delivered by said defendants, Koch and Mack, to said defendant, Perrin and said Randol, payable four years after date, for the sum of $13,000.00 with interest at the rate of seven—7—per cent per annum, interest payable semi-annually, and if not so paid to be compounded.

That said mortgage was recorded in Recorder's office, Fresno county, in Vol. 75 of mortgages, page 332, et seq., and effects that certain real property, situated in Fresno county, State of California, described as follows, to-wit:

Lots 212, 213, 214, 178, 179, 180, 181, 182, 143, 144, 147, 109, 110, 148, east ½ of 103, 205, 206, 207, 203, 201, east ½ of 183, east ¾ of 184, containing together about four hundred and ten—410—acres as laid down and designated on the map thereof, entitled, map of Perrin Colony No. 2, which map was filed for record in the office of the county recorder of said Fresno county, on the eight—8—day of October, 1890, and is hereby referred to for further or more description.

Plaintiff alleges that on December 27th, 1890, said Randol, assigned all of his interest in said note and mortgage to said defendant Perrin and thereupon said defendant Perrin, assigned said note and mortgage to plaintiff herein, who is still the holder and owner of said promissory note and mortgage.

That at the request of defendant E. B. Perrin, and defendants J. P. Koch and Robert Mack, plaintiff released the west half of number two hundred and thirteen, all of lots (201, 207, 208, 143, 181) two hundred and one, two hundred and seven, two hundred and eight, one hundred and forty-three, and one hundred and eighty-one, have been released from the operation of said mortgage.

Plaintiff alleges that there is now due and unpaid on said promissory note and mortgage to plaintiff, the sum of $13,000.00 with interest thereon from December 9th, 1890, at the rate of seven—7—per cent per annum, all in gold coin of the United States.

Plaintiff further alleges that the value of the property described in said mortgage is not sufficient to discharge the amounts due to the plaintiff upon said promissory note and that said property produces an income from rents which should be equitably applied in satisfaction of said debt; and that it is necessary, in order to protect the plaintiff, that a receiver of said property should be appointed in this action to collect the said rents and to apply them as this court may direct by its decree in this action.

Plaintiff prays for judgment against defendants J. P. Koch and Robert Mack, for $13,000.00 in gold coin and interest thereon at seven—7—per cent per annum from December 9th, 1890.

That a receiver be appointed by the court in this action upon the filing of the complaint, or at any time thereafter upon plaintiff's motion to take possession of said premises, and to receive the rents, issues and profits thereof, and to apply them as this court by its final decree may direct.

That the usual decree be made for the sale of said mortgaged property for gold coin of the United States by a commissioner appointed by this court, according to law and the practice of this court; that the proceeds of such sale be applied to the expense of such sale, and to the payment of the judgment in this action; that all of said defendants and all persons claiming from or under them or from or under either of them subsequent to the execution and recording of said mortgage as aforesaid, be barred and forever foreclosed of and from all right, claim or equity of redemption in said described mortgaged real property, and every part and parcel thereof.

That the plaintiff or any other party to this action may become the purchaser at said sale. That a proper and sufficient deed of conveyance of said real property when so sold be executed to the purchaser, and that said purchaser be let into the possession of such real property and for judgment against the makers of said note for any deficiency. And for such other and further relief in the premises as shall appear to be meet and agreeable to equity, as will more fully appear by reference to said complaint.

And you are hereby notified, that if you fail to appear and answer said complaint as above required, said plaintiff will apply to the court for the relief demanded in said complaint.

Given under my hand and the seal of the Superior court of the county of Fresno, state of California, this 11th day of December, 1896.

### Resolution of Intention No. 167.

RESOLVED, THAT IT IS THE INTENTION of the Board of Trustees of the city of Fresno to order the following street work to be done, to-wit:

That a six-inch sewer be constructed from a manhole on Merced street, opposite the alley in block 47, through the center of the alley in blocks 47 and 46, to the north line of said block 46, with a four-inch on six-inch Y for each twenty-five feet frontage on said block, on said alley, the four-inch branch to be capped with an earthen cap; a six-inch inspection hole to be constructed five feet south of the north line of block 47 and one at the upper end of the sewer, equipped with cast iron covers, as provided for in the specifications; the caps of the inspection holes to be even with the grade of the sidewalk.

The last joint but one of the sewer to be a four-inch on six-inch Y, and the four-inch branch to extend to the side of the alley, and then with a quarter curve and four-inch pipe brought to the surface of the ground and extended sixteen feet above the surface, with a galvanized iron pipe four and one-half inches in diameter and capped with a bonnet cover, and securely fastened to a 4x4 inch redwood post 18 feet long, set firmly in the ground 4 feet.

The sewer to be laid upon a uniform grade of 5-10 foot to the 100 feet. The pipe to be of the best quality vitrified, salt-glazed, ironstone pipe. In refilling all material used on the street or sidewalk to be carefully puddled or tamped.

All work to be done according to the sewer specifications on file in the office of the city clerk, and to the satisfaction and approval of the superintendent of streets.

The Fresno Morning Republican is hereby designated as the daily newspaper, published and circulated in this city, in which this resolution of intention shall be published for two days, and the notice thereof for six days, as often as said newspaper is issued therein.

The clerk of this board is hereby directed to publish and post this resolution for two days in the manner prescribed by law.

Passed this 16th day of August, 1897, by the following vote:

Ayes — Trustees McVey, Austin, Spinney, Craycroft.
No—None.

C. J. CRAYCROFT, President Board of Trustees.

# IT WAS ALL A JOKE

## Trustee Spinney Slugged by Fireman Cochran.

### "SCRAP" AT THE ENGINE HOUSE

### But Everything Was Settled Amicably, and the Trustee Will "Fire" Nobody.

Jo Spinney "joshed" at Cochran,
And Cochran, he "joshed" back;
Then Spinney's hard, official head,
It hit the wall a whack;
But in their "joshing," it is said,
Two blows were struck—no more—
For Cochran, he struck Spinney,
And Spinney struck the floor.

There was an interesting "scrap" at the chemical engine house on J street yesterday afternoon. It consisted of a severe drubbing administered to City Trustee Joseph Spinney by Elmer Cochran, the driver of the engine.

The difficulty was an outgrowth of the ill feeling that has existed between members of the fire department and the Fifth ward statesman during the past two weeks. After it was over, Spinney declared that he had only been joking when he made the remark which aroused Cochran's ire and caused him to fly at the trustee.

It appears that Cochran is one of the firemen that Spinney had decided to dismiss from the city's service, because the driver, the trustee was informed, had become rebellious and had been heard to use violent language regarding him. Cochran had heard of Spinney's threats to "fire" him, and of course did not feel very friendly to the member in the city board.

Spinney went to the engine house yesterday afternoon, for what purpose is unknown. He was standing on the sidewalk, and Cochran was inside the chain stretched across the open doorway. The driver called the trustee's attention to the fact that the lines of the harness for the engine team had been worn dangerously thin, and suggested that a new pair ought to be provided.

"Oh, well," replied Spinney, "I guess those lines will last you three days longer," meaning that they would hold as long as Cochran was driver, next Monday night being the time fixed for Spinney's action in discharging city employes.

The trustee had no sooner finished his remark when Cochran went under the chain, and grappling Spinney he shoved the trustee against the wall. Holding the statesman with one hand, with the other the driver slapped Spinney in the face a couple times. They were resounding smacks, and the fireman administered them as if with a vengeance.

The councilman offered no resistance, but bystanders soon interfered.

Spinney staid around the engine house, and after he and Cochran had cooled off somewhat they entered into a discussion of their grievances against one another, and the interesting discourse lasted about two hours.

The trustee said that he was "joshing" when he made the remark that the driver took as offensive. Spinney averred that he coupled it with a laugh, and that he had not intended to injure Cochran's feelings. The driver, in reply, said that he scouted the idea that the remark was made in the spirit of a "josh."

Then followed a talk about the trouble between the fire department and the trustee. Spinney declared that he could not understand why the firemen should have taken such a belligerent stand against him. Cochran replied that as far as he was concerned he had been much put out because he had been told that Spinney had made the statement that he was going to "fire" him, and had spoken disparagingly of him in other ways.

The trustee denied emphatically that he had ever spoken in an ill way about the driver, and Cochran replied that if such were the fact he would apologize. But Spinney answered that he (Cochran) had gone too far, and that an apology could not be accepted.

This vigorous conversation was kept up for some time. Spinney had not been injured seriously and he talked back energetically to the fireman. He denied that he had sent spies to the house to learn what was being said of him, as Cochran accused him of doing. Spinney said that he had avenues of information, however, and that he knew everything that was going on.

Then Cochran and Nate Tompkins, the nozzleman, told the trustee that they knew the informant, and the firemen spoke in very uncomplimentary terms of the party named for carrying tales.

But everything ended well, and friendly relations were restored. Spinney as well as made the statement that he would not "fire" anybody on Monday night. He became good natured, and practically assured Cochran that he would not be ousted from his position. All this trouble, the trustee said, had grown out of misunderstandings. When he had said that he was going down from top to bottom on the list of city employes he did not mean that he was going to discharge them. A wrong construction had been placed upon his declaration, Spinney explained. It was all a misunderstanding, the fight yesterday afternoon included. The trustee's remark to the driver was all a joke, and nothing wrong had been intended.

Spinney stated that his attitude towards the firemen had been misconstrued by the public, and that he was not at all bitter against them.

## A NOVEL INCIDENT.

### Mother and Sister Assist Each Other to Obtain Divorces.

Two divorces were granted in the superior court yesterday. First the suit of Carrie Kelly against Frank Kelly was tried before Judge Webb, and a separation granted on the ground of desertion. Mrs. Sophronia Frost, Mrs. Kelly's mother, testified in behalf of her daughter as to the desertion of the husband.

Then the party proceeded to Judge Risley's court where Mrs. Frost's application for a divorce from John Frost was heard. Mrs. Kelly assisted her mother by testifying as to the desertion of Frost.

It was a somewhat novel incident that mother and daughter should be assisting each other in obtaining divorces from their husbands. Both cases merited separations, however.

**A Fresno Stock Exchange.**

Lazar & Company will open a stock exchange in Fresno at 1713 Mariposa street on Monday. All the principal industrial stocks will be sold and quotations on grain will be received every two and a half minutes from the Chicago market. Quotations on other stocks will be received from New York from seven and a half to fifteen minutes.

**A New Holiday.**

According to an enactment of the last legislature the first Monday in September, which will be the 6th this year, is a legal holiday, and all public offices must be closed. The holiday is the National Labor day. September 9th, Admission day, is also a holiday in this state.

## TOLL HOUSE ITEMS.

### A Donkey Exploded by a Runaway Log.

Hot weather still exists here, but on Pine Ridge it is "as cool as a pickle." Nearly every morning there is a white frost. You can work in your shirt sleeves in the day time and sleep under two pair blankets of a night and then not be too warm. It beats Fresno "all hollow" for climate. There are lots of campers up there to enjoy the fine weather.

Samuel Hall and Joe Alexander are up at Kenyon's to get away from Fresno's heat. They have been back to the big trees and to all the mines near their trail.

They have a baseball team at Kenyon's that will challenge the "crack" players of Fresno soon. They also have a team at Shaver's to play the Fresnans.

Mr. Dixon of the *Chronicle* is up in the mountains mining. He has bought in with the Hatch brothers. Mrs. Dixon has just got back from the mine on Laurel creek. She is delighted with the place and thinks she will make that her future home. The mine is paying well and they think inside of two or three years Pine Ridge will be ahead of Alaska.

A party left Burrough Valley a day or two ago for the Big Trees. They were going to stay four days on the trip.

The sawmills are all running at full blast on Pine Ridge. McCardle's mill is furnishing Mr. Miner at the Toll House with lumber for his box factory. At the T.T.I. & Co. yesterday a steam donkey in the woods blew up by a log running away and breaking off a small pipe. No one was hurt very bad.

Sheepshearing has began at Ockenden's on Pine Ridge, and the woods are full of drunken Indian sheepshearers.

GOLD BUG.

**Ting Chun Duy Arraigned.**

Yesterday afternoon Ting Chun Duy, who was brought over from Salinas on a charge of murder committed here four years ago, was arraigned before Justice St. John. He stated that his true name was Ah Foob, that he belongs to the Yun Wah company, pleaded not guilty and stated that he was mining in Winnemucca, Nevada, at the time of the murder. He left there and afterwards wrote to his friends there but got no answer. His examination was set for August 27th at 2 p. m.

**Attacked With Serious Nose-Bleed.**

An Armenian girl, aged 8 years, was attacked with a severe nose-bleed day before yesterday at the Tenney cannery, where her mother was working. The child was playing in the yard, and with others was sitting in the sun and crunching ice, when the bleeding started. It could not be stopped for several hours, and last evening the girl's condition was very low. It is believed that a blood vessel bursted in her head.

## THE RAISIN MARKET

### GROWERS SHOULD RECEIVE FAIR PRICES.

### The Situation as Viewed by the "California Fruit Grower."

The raisin growers in Fresno are still standing firm for a fair price, with some sales at good figures and none below the minimum of 3 cents all round in the sweatbox.

There is a disposition among growers, and especially those who require advances to pick and cure the crop, to sell at figures from 3¼ to 3½ cents in the sweatbox, according to the quality of the crop. This is sensible, for most of the growers cannot afford to speculate for higher figures when they have been offered a fair living price. Nor is it wise to hold back the crop and keep it out of market when it naturally should be going into consumption, and thereby provoke the importation of foreign goods.

The conditions surrounding the raisin crop this year are such as to warrant a fair price to the grower, but those who are talking of 4½c to 5c in the sweatbox have doubtless fixed their figures too high for the present vintage.

The *California Fruit Grower*, a very reliable journal, has this to say of the raisin situation:

"The latest news from the San Joaquin valley indicates some excitement as to prices for raisins in the sweat box as well as to the probable output of this season's crop. Early estimates have been cast to one side and conservative opinion now places the possible yield as about equal to that of 1896 for first crop, with some doubts as to the outcome of the second crop, which heretofore has been a large factor. Taken as a whole it is considered that the crop will not be excessive and weather conditions during the curing season are yet to be taken into consideration.

"Growers generally are holding for 3 cents and better in the sweat box. Orders for shipment during the first half of October are coming to hand freely, but buyers' views are much below the views of growers at present, hence all orders carrying 3½c price for 3-crown loose are being turned down. Today 3½c is as low as good stock for future delivery can be had, while many are asking 4c for choice 3-crown. For first half of October shipment quotations range as follows: 2-crown 3c, 3-crown 4c and 4-crown 5c. Two-crown loose will no doubt be plentiful, while 3-crown will be in fair supply with 4-crown comparatively scarce. The price of London layers has taken an upward turn. Cutting and curing should begin about the 20th.

"Cables from Denia, Spain, quote Valentia Layer raisins, September arrival, duty paid laid down in New York at 5½c; October arrivals at 4½c. Sultanas, arrivals first half of October at 5½c laid down duty paid.

**San Francisco Thief Arrested.**

William McDevitt was arrested in this city yesterday on a charge of grand larceny, which he is alleged to have committed in San Francisco. He stole a surveyor's instrument in that city. A few days ago Deputy Sheriff Timmins received a letter from Chief Lees requesting that a lookout be kept for McDevitt. Timmins instituted a quiet search, and ascertained that the fugitive was in the city. Yesterday McDevitt called at Joe House's stable and word was sent to Deputy Sheriff Manley, who came and arrested him.

**Superior Court Notes.**

The following business was transacted in the superior court yesterday:

BEFORE JUDGE RISLEY, DEPARTMENT 1.

Sophronia Frost vs. John Frost; divorce granted.

BEFORE JUDGE WEBB, DEPARTMENT 2.

James Faris vs. D. R. Fraser et al.; demurrer to amended complaint overruled and ten days given to answer.

People vs. G. W. Hendricks; arraigned on charge of grand larceny, pleaded guilty and sentenced to San Quentin for two years.

Carrie Kelly vs. Frank Kelly; divorce granted.

**Mining Claims Located.**

W. C. Cook and D. F. Stevens yesterday filed with the county recorder a notice of location of a quartz mine, known as the Black Gulch mine. It is on Kings river. J. H. Babbo located a claim, which he has named the "Clondike."

# THE TRINITY CRAZE

## The Mines Are Simply Porphyry Pockets.

### THEIR VALUE IS OVERRATED

### W. H. Mills Warns Miners That These Fake Newspaper Stories Are Not Trustworthy.

On the top of the Klondyke craze came the discovery of a remarkably rich pocket in Trinity county, and immediately miners from San Diego to Victoria drop their picks and shovels and bolt for this locality, which sensational journalism has pictured and advertised as richer in gold than the streets of the New Jerusalem.

Column upon column of fake stuff was sent forth to distract the public mind, and many men have been led, through the false hopes thus inspired, to spend all their scant savings to reach the Trinity hills, to find that they had left better-paying prospects at home.

Speaking of these highly colored stories, the Redding *Free Press*, printed within a few miles of the Coffee creek diggings, says:

"The California liar can hold his ground with the liar from Klondyke any time, and in this excitement he has done his work to a finish with ability and ingenuity. Another strike like that made by the Graves brothers may not happen again in months, yet may take place in a week. That a great many will find nothing to speak of is certain to be."

Of course a few people will thrive off this senseless exodus to the Trinity hills, but they thrive wholly at other people's expense and impoverishment to no good purpose. These will for selfish reasons, do all they can to keep up the craze, but miners in this locality will, on the whole, do better in the foothills of Fresno, Madera and adjacent counties. There are plenty of paying mines yet undiscovered right at home that earnest prospecting would bring to light.

W. H. Mills, head of the Southern Pacific Land Department makes the following statement of the situation in Trinity:

"I think I owe it in good conscience to the public to say that the field agents of this department, who have expert knowledge in mining, have examined the region; that their reports to me have been for a business purpose, and may be accepted as thoroughly reliable. In a report before me from W. R. Judson, mining expert and field agent for this department, he states that the Graves strike is purely 'pocket;' that it is a 'talc gouge,' six inches to one foot wide, in a porphory formation, and all the gold in sight has been taken out. He finds this pocket strike to be analogous to the pocket mining which recently created excitement near Riddles, in Oregon, and which was experted for this department last May, only that the Graves mine 'crevices' some iron.

"He has received the papers of the state since he has reached Trinity Center, from which point his report is written, and declares that the reports they contain are exaggerated and that there is nothing in the find of gold in the vicinity of Coffee creek or Trinity river to warrant the excitement that has been created, and the reports of other large strikes in addition to the Graves strike are untrue.

"It is never an agreeable task to dispel illusions; but deception in these things works hardships upon a great many people who can ill afford to pay railroad fair, stage fare and hotel bills, only to be disappointed in the end. The full truth concerning these matters will, of course, soon be known, and accurate detailed reports will resolve all doubts. But the information, which I am not at liberty to disregard, and which I must receive as from a sober and competent authority, leads me very reluctantly to the conclusion that the recent reports of extravagant gold finds on Coffee creek are erroneous, and that the excitement which has been created by these reports is not warranted by any actual discoveries which have yet been made."

## NEWS FROM JUNEAU.

### Gold Hunters Advised to Purchase Outfits There.

JUNEAU, Alaska, Aug. 11, 1897.

To our friends: We have just reached Juneau and after going through the outfitting stores here, inspecting the goods and comparing prices, we find we have made a big mistake in outfitting before we reached Juneau.

The outfitting firm of Decker Bros. we find at all times have an immense stock of goods. Their prices are just as low as in San Francisco, they know what is necessary and how to properly pack and put up the goods for the trip.

We purchased our outfits in San Francisco and now find it necessary to repack most of the goods, and also find our outfits do not contain some articles that are absolutely necessary.

We earnestly advise everyone going to the Yukon to purchase nothing until they reach Juneau. There is everything here and in large quantities, and when freights are considered a good saving is made in the cost and the outfits are put up by men who thoroughly know the country and who understand the outfitting business from beginning to end.

Any information in regard to the country or cost of the trip Decker Bros. assure us will be cheerfully and promptly given, if you will drop them a line.

## BASEBALL NEWS.

### The Athletic Nine Withdraws From the Tournament.

That Fresno is what baseball players term a "good ball town" seems to be realized by players in all parts of the state. Manager Ward is besieged with applications for positions on the FRESNO REPUBLICAN team from players of greater or lesser ability from almost all sections of California. Every mail seems to increase the stack of applications and judging from the ability of some of the applicants it seems a forgone conclusion that the acceptance of some of the best would make the REPUBLICANS the best team in the state.

Among the applications worthy of especial note are those of Baker and Farrow of the Riverside team. Farrow is the great southern pitcher who held the Riverside giants down to six hits in the tournament game last week. Baker is the second baseman and change catcher of the team and his record proves him to be a player of more than average ability.

Several players of San Francisco are also anxious to come to Fresno and Manager Ward is corresponding with those who seem to be of value to him.

Negotiations are being carried on between the REPUBLICANS and the Bakersfields for the purpose of arranging a game for tomorrow at Athletic park. It is very likely that the two teams will come to an agreement this morning.

The San Francisco Athletic nine has withdrawn from the *Examiner* tournament and will play with the Stocktons at the Slough City tomorrow.

## TWO YEARS IN PRISON.

### Hendricks, the Baggage Thief, Pleads Guilty and Is Sentenced.

G. W. Hendricks, the baggage thief from San Francisco, who made a confession of his crimes day before yesterday, was yesterday sentenced by Judge Webb to serve two years in San Quentin. Early in the day the prisoner's examination was held before Justice Austin and he was held to answer on the testimony of Deputy Constable Henry, who related to the court the confession made by the defendant. Hendricks offered no defense.

In the afternoon the young criminal was taken before Judge Webb and arraigned. He pleaded guilty, and waiving time for sentence the court passed judgment.

The accusation was that of grand larceny, which the thief committed when he stole a valise from a train at the depot. Yesterday Hendricks confessed to Deputy Sheriff Timmins and Deputy Constable Henry the theft of another valise in San Francisco.

# HENRY STURR'S CASE

### ARRESTED THE THIRD TIME FOR THE SAME OFFENSE.

### Justice St. John Was Not Aware of a Previous Complaint.

Deputy Constable John Dumas returned from the mountains last night with Henry B. Sturr, whom he went after with a warrant charging attempted murder. Sturr was at work at one of the mills back in the mountains, and the officer had a long, disagreeable trip to the place. Sturr is wanted to answer to the charge of shooting George Roeder in Auberry valley last March.

E. S. Van Meter, who is Sturr's attorney, stated to a REPUBLICAN reporter yesterday that his client has already been arrested for the attempted murder. Shortly after the shooting Constable Ben Dennis swore to a complaint against him in Justice Phillips' court at Academy. Sturr was arrested and placed under bonds to assure his appearance when wanted for examination.

The case was not pressed, however. A few weeks ago Constable McClung swore out a warrant in Justice Butler's court at Clovis and arrested Sturr. The defendant was taken from his work for several days, and the case was dismissed when it was learned that he was already under arrest on the charge. McClung sent in a handsome bill for mileage he traveled in going to the mountains and back, but under the circumstances Deputy District Attorney Jones refused to O. K. it, and it was not allowed.

Now Justice St. John has issued a warrant and Deputy Dumas went to serve it. They were not aware of the fact that Sturr had already been arrested. The accusation in Justice Phillips' court takes preference, but why the case has not been brought to an examination is unknown.

## CASH THOMAS TO BLAME.

### Pancho Espinosa Demands a Jury Trial.

Pancho Espinosa was arraigned before Justice Austin yesterday on a charge of jail-breaking, pleaded not guilty and demanded a jury trial in the face of certain conviction. Pancho was in Professor "Cash" Thomas' class of "city geologists," and as he was about to graduate from the rock pile Thomas detailed him to carry water and he bolted, and after being chased over town all one afternoon was captured out north of town.

Pancho informed the court that he wanted a jury trial, saying: "I'm not to blame; it's the officer's fault; he had no business to make me a trustee." Pancho, of course, will be booked for a post-graduate course on the rock pile.

**Dust and the Street Sweeper.**

The city trustees should stay up an evening, come down town and see the beautiful cloud of dust that the street sweeper creates. Last night the cloud reached nearly as high as the biggest buildings, and complaint is well grounded. There should not be so much time between the sprinkling and the sweeping.

# LAUREL CREEK PLACERS

### STRIKE MADE BY A PARTY OF MINERS.

### Sluicing Will Be Commenced as Soon as the Fall Rains Set In.

A letter was received in this city yesterday from Samuel Jennings, the store-keeper at Kenyon's station, on Pine Ridge, in which he stated that a man named Bennett and nine other miners had found rich placer diggings above the falls on Laurel creek, near where Louis Rabordore made his great quartz strike last week. The source of Mr. Jennings' information is not known, but the report he sends down is credited. How rich the new pieces are he does not state.

Laurel creek, above the falls, has many small flats along its banks, and on these the new diggings have been located. They have always yielded fairly good indications of gold, but never before have been thoroughly prospected. The miners have always confined their work to the surface and never went down to the bedrock, having a mistaken idea that it was useless to penetrate very far into the earth.

Mr. Bennett formerly ran a sawmill on the Ridge, and, after he gave up the lumber business, turned his attention to mining. Early this season he began prospecting for gold on Laurel creek. He picked out a flat above the falls, and worked industriously till he reached bedrock, where, according to the report, his efforts were richly rewarded.

The lucky prospector said nothing about his strike, but quietly came to Fresno, filed a location on his claim, and organized a party of nine relatives and friends. They purchased a good store of supplies and a complete outfit of mining tools, and with pack animals made their way back to the wilds of the Sierras, where fortune was awaiting them.

It was last Wednesday that the party passed Jennings' store. The travelers stopped there to rest a while, and one of them then remarked to Mr. Jennings that they were bound for gold fields that might rival Klondyke.

The party has sixteen pack animals, which are now engaged in carrying lumber back to the diggings for building living cabins and constructing sluice boxes. Sluicing will be commenced as soon as the rains set in.

The miners are busy running a tunnel from the bed of the creek down to the bedrock of their claims, several of which have been located by the members of the party. The tunnel will facilitate the mining very much.

**House Burned in Belmont.**

A house in Belmont addition, owned by Dr. R. A. Hamilton and occupied by Dr. Moxie, both veterinary surgeons, was destroyed by fire about noon yesterday. The loss was about $1500, and the insurance is light. Nothing was saved from the house.

## THERE WAS A HOT TIME

EXCITING INCIDENT AT A COLORED DANCE.

Kate Shores, Incited by Jealousy, Would Carve Her Former Lover.

There was a hot time at a dance held by the colored people in Truitt's hall, west of the railroad, night before last. An incident happened which gave the social gathering much of the character of genuine "hoe-down" in old "Soul Ca'lina."

The party was one of the social events which are frequently held in colored circles in this city. There was a good attendance, and enjoyment reigned supreme for several hours. The light fantastic was tripped in jolly style, and in fact the colored folks were having a good time, such as only their race can have.

It was about midnight, just before supper was spread, when the hot time was had. Kate Shores was the cause of it. Incited by jealousy, she picked up a carving knife and wildly ran towards Grant Shores, her former lover, brandishing the steel and declaring that she would cut him to pieces.

"Cut, cut, cut," cried Shores, who stood still as the woman advanced.

"Grant Shores, I'll cut you to pieces; I'm going to carve you right now," the excited woman announced.

"Carve, cut, cut," replied the fearless Grant in deep tones of defiance.

Kate did no more than utter threats and wave the knife in front of her faithless lover's face.

Then others interfered, and they forcibly took the irate woman to a corner. She fought them, and repeatedly declared that she would kill the object of her wrath.

The men could not pacify her, and finally ejected her from the place, and she went home, a very mad wench.

It appears that Miss Kate was formerly Shores' inamorata, and that they dwelt together in a West Side cottage for some time. A few months ago, however, Grant left her, being smitten by the charms of another colored damsel. He told the woman who had lived with him as his wife, and who had assumed his name, that he would have nothing further to do with her.

Grant came to the dance with his new girl, and his former inamorta was also there. He paid gallant attention to the conquest for which he had given up Miss Shores, and the burning jealousy of the latter was aroused. She was carving a chicken on the supper table, and Shores and his new girl were having a *tête-a-tete* over in the corner.

Suddenly Miss Shores made the rush for him. She had become desperate, and could contain herself no longer. She flew at Shores with a vengeance, and the hot time ensued.

This was the only incident to mar the success of the dance, and every one else had a good time.

### Bowers Talks to Veterans.

From the San Diego Sun.

Camp Abe Lincoln was most fittingly inaugurated by the comrades of the G. A. R. and by the citizens there gathered last evening. Mayor Reed's welcome was an appropriately hospitable one. Judge McDonald spoke in his most eloquent manner and presented a word picture of a battle lost and won, which was more vivid than artist could put upon canvas.

But in our opinion the speech of the evening that should be most studiously considered is that presented elsewhere and which was delivered by Hon. W. W. Bowers, on liberty for all mankind, and upon the American right to assert the principles of liberty. Mr. Bowers has presented the case clearly and forcibly and Americans will not be over-proud of some phases of the showing made. As Bowers says, however, this official condition cannot be charged up against the spirit of the plain people of the country. There is no less of patriotism and freedom-loving spirit in the land in 1897 than there was in 1777, or in 1860. Let opportunity present itself and this spirit promptly finds expression. For instance, one of the opportunities presented itself last evening, and no one will question the sincerity of the expressions that came from the comrades of the G. A. R.

DR. HOBB'S SPARAGUS KIDNEY PILLS

Make the kidneys strong and healthy. They cause the kidneys to filter all Uric Acid and other poisons or impurities from the blood. Healthy kidneys make pure blood.

**Dr. Hobbs Sparagus Kidney Pills**

cure Rheumatism, Gout, Eczema, Anaemia, Pimples, Bad Blood, Bright's Disease, Malaria, Backache, Kidney Pains, Dropsy, Pain in the Abdomen, Frequent Urination, Inflammation of Kidneys, Female Weakness, etc.

You are at liberty to publish my testimonial as follows: For the last two years I have been suffering with kidney troubles of a very serious nature, bordering on Bright's Disease, and after trying many remedies to no purpose, I tried Dr. Hobbs' Sparagus Kidney Pills. After using three boxes I must say conscientiously that I began to improve, and after using six boxes I am able to attend to business, and my health is as good as can be expected at my age, sixty-three years. I will gladly correspond with any sufferer. [illegible]

## REGULATION.

Every machine, either human or mechanical, must be governed by some means of regulation. Mechanics have employed the centrifugal governor for engines, while the physicians are using compounds, commonly known as physic, for the human machine, which act on the liver as a stimulant and in time overtaxes the normal vitality of that great regulating organ. There is far more logic than poetry in the exclamation, "How's Your Liver?" than humanity suspect. The human animal is the only one that has to be "doctored." The horse eats his barley from day to day (when he gets it), and never asks for pills, as barley contains the natural tonic for the liver. When barley is made into malt, the proper amount of hops added, and then fermented into steam beer, you have one of the finest artificial regulators known. The Enterprise Brewing Co. of San Francisco makes a specialty of steam beer, pale as lager and sparkling as soda. We wish to take this opportunity, as the speaker would say, "to thank you, one and all," for the many trips you've made to our Enterprise for your "Bratwurst" and hard tack, which will be substituted the first month with R in it for horned toad and mud turtle sandwiches. Yours for regulation and health at KNOBLOCH & DECKER'S, No. 1927 Mariposa.

## THE DIFFERENCE.

SMITH—"Good morning, Mr. Jones, where are you going this morning?"

JONES—"Going to see a doctor; my stomach is so bad I can hardly eat anything."

SMITH—"Where do you board, Mr. Jones?"

JONES—"No place in particular; I have tried most every place, but there isn't much difference."

SMITH—"Just look at me; I eat at the COSMOPOLITAN RESTAURANT, and let me advise you, Mr. Jones, if you come there and eat you will not need any doctoring; everything is clean, fresh and wholesome."

And Jones went with him.

Notice of Sale of Real Estate Under Deficiency Execution.

Sheriff's sale. No. 7750.

Harry O. Raynor vs. Robert G. Stitt et al.

BY VIRTUE OF A DEFICIENCY EXECUTION issued out of the superior court of the county of Fresno, of the State of California, wherein Harry O. Raynor, plaintiff, and Robert G. Stitt et al., defendants, upon a judgment docketed for deficiency the 10th day of August, A. D., 1897, for the sum of one hundred dollars, United States gold coin, besides costs and interest, I have this day levied upon all the right, title, claim and interest of said defendant, Robert G. Stitt, of, in and to the following described water ditch as follows: Frequently known as the Reeding and Stitt ditch and described generally as follows: Beginning at a point in the Herndon branch of the Fresno Canal and Irrigation Co.'s canal in section twenty-one township thirteen south, range 20 east thence running southwesterly and southerly through sections twenty-eight, twenty-nine, thirty-two and thirty-one in the said township, thence south westerly across the north half of section six, in township fourteen south, range twenty east.

Public notice is hereby given that I will on Monday, the 6th day of September, A. D., 1897, at 2 o'clock p.m., of said day, in front of the court house door of the county of Fresno, sell at public auction, for United States gold coin, all the right, title, claim and interest of said defendant, Robert G. Stitt, of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs, etc., to the highest and best bidder.

Summons.

No. 7798. Dept. No. 2.

In the Superior court of the county of Fresno, state of California.

Mary H. Jarboe, executrix of the last will of John R. Jarboe, deceased, plaintiff, vs. Joanna P. Peirce, Harriet C. Peirce, Sarah Eliza Emerson, N. B. Emerson, Joe Doe and Richard Roe, defendants.

Action brought in the Superior court, in and for the county of Fresno, state of California, and the complaint filed in the office of the clerk of said county.

The people of the state of California send greeting to Joanna P. Peirce, Harriet C. Peirce, Sarah Eliza Emerson, N. B. Emerson, John Doe and Richard Roe, defendants.

YOU ARE HEREBY REQUIRED TO APpear in an action brought against you by the abovenamed plaintiff in the Superior court, in and for the county of Fresno, state of California, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the day of service on you of this summons, if served within this county, or, if served elsewhere, within thirty days.

The said action is brought to recover judgment against you for the sum of twelve thousand one hundred and seventy-two and 95-100 dollars ($12,172.95) in gold coin of the United States. Plaintiff alleges that on the 21st day of December, 1892, defendants and others executed to John R. Jarboe a certain promissory note for the payment of $16,000 in gold coin with interest at the rate of eight per cent per annum; that they also executed a mortgage on certain real property to secure the payment of the same; that said John R. Jarboe died and plaintiff as executrix of his last will and testament after due proceedings had obtained a judgment and decree of this court, for the foreclosure of said mortgage and sale of said real property; that the same was sold for the sum of $6000 under said decree, and the proceeds applied toward the payment of said note after paying costs of said suit and that there remains unsatisfied thereon the said sum of $12,172.95, no part of which has been paid and all of which is due with interest at the rate of 8 per cent per annum from April 7, 1897.

For further particulars you are hereby referred to the complaint on file herein, a copy of which is served herewith.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will take judgment against you for the sum of $12,172.95, together with interest thereon from the 7th day of April, 1897, at 8 per cent per annum and costs of suit, as demanded in said complaint.

Given under my hand and the seal of the Superior court, in and for the county of Fresno, state of California, this 4th day of May, in the year of our Lord one thousand eight hundred and ninety-seven.

[Seal of the Superior court.]
